

Jacob Summerlin Camp 1516 Sons of Confederate Veterans

1. Jacob Summerlin Camp 1516 is a group of men, 60+ strong, located in Osceola County. We belong to a larger group, 37,000+ strong, known as the Sons of Confederate Veterans. The Sons of Confederate Veterans is a heritage organization whose purpose is to honor our Confederate ancestors who fought for a cause they felt was just.

We, the Sons of Confederate Veterans, are an outgrowth of an organization known as the United Confederate Veterans. Lt. General Stephen D. Lee, Commander General of the United Confederate Veterans, gave us our charge in New Orleans, Louisiana, in 1906. His charge reads as follows:

“To you Sons of Confederate Veterans, we submit the vindication of the cause for which we fought. To your strength will be given the defense of the Confederate Soldier’s good name, the guardianship of his history, the emulation of his virtues and the perpetuation of those principles he loved and which made him glorious and which you also cherish. Remember, it is your duty to see that the true history of the South is presented to future generations.”

2. To a person seeking admission into the Sons of Confederate Veterans the following facts are quite clear. *We the Sons of Confederate Veterans do not lend support to individuals or groups who use the battle flag of our ancestors in acts of violence or civil disobedience. At one time the idea of suit against such individuals or groups was considered, but because the First Amendment of the United States Constitution guarantees both freedom of speech and expression, it was not pursued. Individuals who seek membership in our organization are asked*

why they wish to join ranks. They are told up front that if they are looking for a racist or hate group to go elsewhere, because they are not welcome amongst us. A person takes an oath when he becomes a member of Jacob Summerlin Camp 1516, Sons of Confederate Veterans. Part of the oath is that he will support and defend the Constitution of the United States against all enemies, both foreign and domestic.

3. The Confederate Battle Flag was just that. It was a device used as a guide for troops while marching, or in combat and came into existence because of the confusions that occurred on the battlefields due to the similarity of the national flag of the Confederate States of America to the flag of the United States of America.

We understand the fact that our Battle Flag is looked upon with disfavor by some individuals and groups. It is also true that flags displayed by other individuals and groups are looked upon with disfavor by some. We do not feel that one flag should be singled out from a larger group of flags. It is for the above reasons and our desires to carry out the charge given to us by Lt. General Stephen D. Lee that we oppose the banning of our Battle Flag.

The Constitution of the United States in all of its greatness does not give any one of us the right not to be offended. It does give us the right of both freedom of speech and expression.
